3.0 Pre-Formulation Development

Physical (particle size, flow properties, density etc.) and thermal properties (polymorphs), solubility, hygroscopicity, stability and forced degradation of active pharmaceutical ingredient and excipient compatibility studies are carried out during the study to assist formulation development and analytical development process. Based on the pre-formulation work, excipients shall be selected for further development work.

Note: For polymorphs study DSC (Differential Scanning Colorimeter), XRD, and NMR equipments are required. If such equipments are not made available at Balaji College of Pharmacy, all polymorph studies shall be out-sourced at the cost of WSP (Payment for all out-sourced polymorphs studies shall be done by WSP).

4.0 Innovator Product Characterization

Two different lots of innovator product shall be characterized for following parameters:

Physical Characterization:

- ✚ Tablet Dimensions
- ✚ Average Weight
- ✚ Hardness
- ✚ Thickness
- ✚ Fill Weight (If possible)
- ✚ Disintegration Time
- ✚ Loss on Drying (LOD)
- ✚ Packaging Details

Chemical Characterization:

- ✚ Assay
- ✚ Related Substances
- ✚ Dissolution Profile
- ✚ Water Content by Karl Fischer (KF)

The innovator product samples shall be subjected to informal stability at 40⁰ C / 75% RH in open and closed conditions and shall be analyzed for all the parameters mentioned under chemical characterization.

Note: For hygroscopic studies, suitable & needful equipment(s) shall be purchased as per the terms & conditions of MoU; however, Fill weight studies can not be done for product.

5.0 Active Pharmaceutical Ingredient (API) Characterization

The API from vendor shall be characterized for the following parameters.

Physical Characterization:

- ✚ Solubility
- ✚ Particle Size
- ✚ LOD
- ✚ Bulk Density and Tap Density
- ✚ Polymorph

Chemical Characterization:

- ✚ Assay
- ✚ Related Substances
- ✚ Water Content by KF

Note: Equipments required to carryout drug-compatibilty studies shall be made available at Balaji College Of Pharmacy as per the terms & conditions of MoU, if they are not available at Balaji College Of Pharmacy; however, all special chemicals shall be provided by WSP.

6.0 Prototype Development

Prototype formula shall be developed with different preliminary granulations / blend formulations (batch size about 250 g) by using:

- ✚ 1st approach: dry blending / compaction process
- ✚ 2nd approach: wet granulation process

- Evaluate the granules / dry blend by
 - ⚡ Flow
 - ⚡ Bulk and tap density
 - ⚡ Particle size distribution
 - ⚡ Moisture content
 - ⚡ Blend uniformity
- Feasible granules / blends shall be compressed into tablets by using tablet machine.
- Evaluate selected tablet prototypes for
 - ⚡ Content uniformity
 - ⚡ Water by KF
 - ⚡ Related substances
 - ⚡ Assay
 - ⚡ Dissolution
- Selected prototypes are subjected to direct exposure studies for 4 weeks at 40⁰ C / 75 % RH and 60⁰ C to evaluate chemical stability.
- Selected prototypes are fine tuned and optimized to match the dissolution profile to arrive at the final formula. One or two final prototypes shall be subjected to multimedia dissolution for comparison.
- Two consecutive batches shall be taken and evaluated completely to check the reproducibility with respect to assay and dissolution only.

Note: The following equipments are required to carryout the above listed studies, which shall be purchased and made available at Balaji College Of Pharmacy as per the terms & conditions of MoU.

1. RMG & Multimill for wet granulation,
2. Stability chambers(1000 litre capacity – 2 No.s) for stability studies,

Recommendation: As far as possible, same model of equipments as in WSP with lesser capacity are required to set up at Balaji College Of Pharmacy for scale up process in order to avoid wastage on time & money.

7.0 Analytical Methods Development

The analytical methods shall be developed for the finished product, using the active drug substance methods provided by the suppliers as the baseline. Methods shall be developed for formulations including but not limited to assay, related substances (RS), water content by KF,

particle size distribution, content uniformity and dissolution etc. The developed methods shall be qualified for accuracy, specificity, recovery and precision.

Note:

1. Particle size distribution studies would be carried out using microscopy and sieving analysis techniques.
2. Relative substance (RS) should be supplied by WSP.
3. WSP should undertake Annual Maintenance Contract (AMC) for the following equipments at Balaji College Of Pharmacy for regular & continuous usage. The AMC required equipment are: tablet compression machine, UV, HPLC, dissolution apparatus, KF, pH meter, Conductivity meter, IR moisture balance, sonicator, and other newly purchased equipments(after expiry of their warranty period).
4. Auto samplers for dissolution studies should be purchased, if required.
5. Continuous power supply and Distilled water (50 litres/day) should be ensured throughout the project.
6. Document format has to be supplied by WSP.

8.0 Informal Stability Studies

Two to three potential prototype formulations are subjected to stability in blisters (or as required by the customer) at 40°C / 75% RH and at 25°C / 60% RH for a period of 3 months. Samples shall be analyzed using a qualified stability indicating method on as needed basis. Samples stored at 25°C / 60% RH shall be analyzed when abnormality is observed at 40°C / 75% RH stability data. Data from these studies shall be used to identify and select the excipients, composition and process for the final formulations.

9.0 Scale Up and Process Development

A process development protocol shall be prepared identifying the parameters and variables to qualify the manufacturing process by evaluating the blends and finished product. During process development, a batch size of 3 to 5 kg shall be taken and all process challenges shall be evaluated for fill weight, content uniformity and dissolution. A process development report shall be prepared along with suggested changes in the final formula, if required.

Note: WSP should assist Balaji College Of Pharmacy in scale up process.

10.0 Manufacturing and Test Product Supply Capabilities

Balaji College Of Pharmacy will work with WSP preferred manufacturing partner for manufacturing, packing and storing of exhibit batches. Formal stability will also be conducted at the same site.

11.0 Submission Batch

Critical documents like Batch Manufacturing Record (BMR), stability and sampling protocols, in-process and finished process requirements and standard test procedures (STP) shall be generated and executed at the identified cGMP area with a batch size of minimum 100,000 tablets or 1/10th of eventual production batch size (whichever is higher). Three such batches shall be produced and the batch samples shall be sent for analysis at in-process and at finished stage as mentioned in the sampling protocol. The finished product batches shall be released by QA along with a COA.

12.0 Pivotal Bio Study

Samples of the reference product and the submission batch shall be sent for conducting Pivotal bio equivalence study at a pre-approved CRO.

13.0 Formal Stability

The manufactured batches shall be packed and shall be subjected to stability as per International Conference of Harmonization (ICH) conditions (Zone II). Reference product shall also be subjected to accelerated stability along with the manufactured batches. Stability studies shall be conducted at the same site as exhibit batch manufacturing.

14.0 Quality

All the raw materials will be tested and released by QA, for the manufacture of cGMP batches. Quality organization will ensure all the procedures are followed as per GMP and GLP regulations. The raw data and final reports will be reviewed and released by Quality organization.

All the study related relevant documents will be archived for five years at Balaji College Of Pharmacy. Samples will be retained as per customer requirements.

Note: Laboratories of Balaji College Of Pharmacy should be upgraded for cGMP & GLC grade as per the terms & conditions of the MoU.

- ✚ Analytical Method Validation Report
- ✚ Master Formula Cards
- ✚ Process Development and Optimization Report
- ✚ Product Development Report
- ✚ In-Process and Finished Product Requirements and Test Methods
- ✚ Executed Batch Manufacturing Record
- ✚ Executed Sampling Protocol
- ✚ Executed Stability Protocol
- ✚ Stability Data Compilation and Summary
- ✚ Any Other Dossier Related Documents

All the above documents shall be supplied in CTD format.

16.0 Manpower Involved

Balaji College Of Pharmacy shall employ the following staff structure to execute the assignment of WSP. These resources shall be deployed towards specific activities in the project, on a shared basis, in line with the project management plan and as dictated by the customer requirements.

1. Formulation Team
 - a. HOD
 - b. Scientist(s)

Note: Balaji College Of Pharmacy recommends appointment of two M.Pharm (Ph'ceutics) and M.Pharm (Ph' Analysis) candidates exclusively for project work. Salary of these candidates along with others as indicated above shall be paid by WSP.

17.0 Project and Technical Assumptions

1. All external communications with regard to the project shall be done by the Principal, Balaji College Of Pharmacy, routed through Director, R&D division of Balaji College Of Pharmacy.
2. WSP should verify and approve the existing facilities at Balaji College Of Pharmacy prior to the commencement of the project work.
3. Purchase of all needy equipment, which are not available in the college, shall be done on 50:50 share basis - if such equipments are jointly used by both Balaji College Of Pharmacy & WSP; however, if new equipment(s) are required only for the purpose of project, WSP would bear 100% cost of the equipment(s).
4. API and RLDs shall be supplied by WSP at its cost, in line with the timelines agreed upon in the mutually accepted project plan.
5. WSP shall arrange for the impurities, working standards and the open part of the DMF, along with the API, through its API source.
6. Balaji College Of Pharmacy and WSP jointly arrange for all the necessary clearances and approvals, if required, to be able to import the API and RLDs into India.
7. Balaji College Of Pharmacy shall communicate the API specifications required, to WSP prior to WSP placing the orders for scale-up quantities.
8. Regular (preferably biweekly) project communication is needed to update each other on project progress as well as discuss and accommodate any changes in these assumptions.
9. Tablet shape, size, color and imprinting is to be defined by WSP and lab-scale tooling arrangements will have to be done by Balaji College Of Pharmacy.
10. Balaji College Of Pharmacy shall develop the formulation using conventional excipients and manufacturing processes.
11. API, RLD and Bio Study costs are not included in the project quotation.
12. Tooling costs and packing change part costs for exhibit batches (if required), unusually expensive excipient costs; HPLC columns; any special columns (like chiral columns), and/or expensive chemical costs shall be billed to the customer.

14. Balaji College Of Pharmacy will take care of project management of scale-up/exhibit batches and WSP will reimburse Balaji College Of Pharmacy for all out of pocket expenses like travel, lodging, boarding and local transportation (Note: Jointly both by Balaji College Of Pharmacy & WSP, wherever applicable, to avoid disturbance of the academic activities of the college).
15. Balaji College Of Pharmacy will support WSP throughout the dossier review process, until its final approval.
16. If this project is cancelled midway by WSP for any reason, the rest of the project amount is to be paid to Balaji College Of Pharmacy.
17. Once product development is completed and tech transfer stage is ready, it is WSP responsibility to keep the project moving through exhibit batches, pivotal bio studies and filing. If there is more than 3 months' delay at any of these stages, that invoice will be paid to Balaji College Of Pharmacy immediately.
18. Academic credential of the patent(s) must be with the college and WSP retains commercial rights.

2. **AIC-SKU** is one of the premier **Incubation** Centre in the region identified by NITI Aayog, Govt of India and is **engaged**, inter-alia, in developing the entrepreneurial ecosystem in the region in diverse areas of science & technology.

a. **Incubating technology** based novel ideas

- b) Promoting interaction with and resourcing technology and expertise from the incubatees
- c) Creating jobs in rural sector through enterprise and entrepreneurship development.

The purpose of this Memorandum of Understanding is to provide a framework for the proposed collaboration

The Memorandum sets out the mutual agreement to the terms and conditions as set out herein, initially for a period of **Two (02)** year starting from the Effective Date and extendable further on mutually agreeable term period. The parties may carry out Projects under this Agreement by executing mutually agreeable proposals.

Technical / Entrepreneurial Activities

SBES will work closely with the AIC-SKU in the following activities for the students-

- a) Conduct Srujana Shibir programmes (Innovation Readiness Camps) in the SBES's Colleges campus to motivate and create awareness about the entrepreneurship, start-ups and innovations.
- b) Screening of novel and innovative ideas (Ideathons) and progress them to prototypes (Hackathons).
- c) Providing time-to-time mentoring to students in converting their ideas into working prototypes.
- d) Assist students in getting the IP rights to their products.
- e) Give students access to the college facilities and infrastructure to enable them to prepare their prototypes.
- f) Support students in presenting models at various events.
- g) Develop the presentation skills in students.
- h) Financial assistance to the potential innovations to develop them into products and further into possible start-ups.

AIC-SKU will spearhead the whole process of motivation, ideation, **prototype development**, necessary training through internships and events, facilitating **IP rights and mentoring** students towards start-ups.

Space & Basic Infrastructure

AIC-SKU will provide limited space, facilities and basic infrastructure in support of this initiative at AIC-SKU campus. AIC-SKU shall extend its office space and facilities for the conduction of different programs such as training, exhibition, and not for any other reasons.

SBES shall provide the necessary space, manpower assistance and necessary facilities to conduct the programmes mentioned here. It also shall extend its laboratories and workshop for the students to develop their products.

Deliverables

1. Generating and curating at least 50 innovative ideas each year.
2. Translation of at least 20 ideas into prototypes each year.
3. Development of at least 10 patentable products each year.
4. Submission of at least 03 patents per year.
5. Creation of at least 10 startups/MSME ventures per year.
6. Empower the faculty to inculcate the spirit of entrepreneurship and innovation in the academics and teaching programmes.

Outcomes

This MoU through the concerted effort from both parties anticipate the following outcomes-

1. Creation of entrepreneurship ecosystem in the SBES's Colleges that motivates students to think out-of-the-box innovations.
2. Organising awareness generation, ideathons and hackathon event jointly (physically & virtually).
3. Generation of novel ideas from students relevant to local problems.
4. Translation of academic projects potential business models and
5. Creation of new IP assets.
6. Faulty empowerment with entrepreneurial spirit.

Financial Implications

All events and training programs conducted at SBES will be managed by SBES and events at AIC-SKU will be managed by AIC-SKU.

The logistics and material expenses related to students' innovations handled at its campus shall be borne by SBES.

The IPR and prototyping expenses for product protection and development shall be borne by SBES and AIC-SKU.

To access the services and facilities (prototype development/IPR/etc) of AIC-SKU, all the pre-incubatees and incubatees must register with AIC-SKU.

Consultancy

Time to time involvement of external expert for technical guidance and marketing expertise shall be decided by both the parties on mutually agreeable terms. The financial implications for this will be at the scope of AIC-AKU and SBES.

Collaborative Projects

SBES and AIC-SKU can jointly bid for projects to different funding bodies including Government, NGOs, corporate to promote research, innovation, startup ecosystem in the domains of agriculture, waste-to-value, renewable energy, IT, automation or any other relevant fields. Both the parties may jointly raise funds for CSR activity from corporates.

Further, SBES and AIC-SKU execute consultancy activities to industry, government and corporates in the domain areas listed above.

Intellectual Property

Background IP: The Parties recognize and acknowledge that the ownership of the background IP belonging to each party will exclusively belong to that party.

The ownership of IP shall rest with the innovators. AIC-SKU is concerned only with the IPRs related to emerging entrepreneurs & startups from this joint effort between SBES and AIC-SKU. The percentage of royalty/revenue from the patented product/technology shall be shared between the inventors and SBES as per their mutual agreements. AIC-SKU shall be honoured for its services towards IP development by extending mutually agreeable royalty from the revenues from the invention subject to minimum of 10 % of total revenue or equity of 5% in the start-up company that own the technology/product. The financial implications towards patent process such as application, examination and others shall be borne by both the parties on 50:50 basis subject to a maximum of Rs. 40,000 per patent by AIC-SKU.

For filings outside of India, parties will enter into separate agreement. AIC-SKU shall be entitled to use the results for academic and research purposes. No commercial use or sublicense is permitted without the other party's written consent.

Innovations for IPR filing will be screened and selected based on the recommendation of committees at SBES's College and further approval by AIC-SKU committee constituted to review the patentability of the submitted applications.

Representation

SBES appoints Mr. D. Harsha Vardhan and Dr. A. Chandra Babu from PVKKIT have been appointed as representatives to lead this MoU initiatives with AIC-SKU.

Resolution of Disputes and Governing Law:

In the event of any dispute between AIC-SKU and SBES, written inputs regarding the dispute shall be provided to the other party. Such dispute or differences shall be resolved amicably by mediation and discussion between the Parties. If not, amicably settled within sixty(60) days of the dispute or claim arising, such dispute or claim shall be decided by a sole arbitrator appointed mutually in accordance with the provisions of the Indian Arbitration & Conciliation Act, 1996 (as amended). This Agreement shall be governed by Indian laws and the parties agree to submit to the exclusive jurisdiction of the courts at Anantapur.

Confidentiality

- During and for a period of three years from the date of termination of this Agreement, each party agrees to consider as confidential all information disclosed by the other party in written or tangible form or, if orally disclosed confirmed in writing within thirty days of disclosure and identified as confidential by the disclosing party.
- The obligations above shall not extend to any confidential information for which the receiving party can prove that this information:

- is in the public domain at the time of disclosure or comes within the public domain without fault of the receiving party,
- is already known or become known to the receiving party
- is received from a third party having no obligations of confidentiality to the disclosing party,
- is independently developed by the receiving party; or
- is required to be disclosed by law or court order.

Force Majeure

In the event that either Party is delayed or impeded in the performance of its obligations hereunder by any cause beyond its reasonable control it shall be entitled to such extension of time for such performance as may be fair and reasonable in all the circumstances.

Amendments to the MoU

Changes and/or deviations are likely to happen both in context and extent of the subject matters covered under this MoU. Any modifications to the agreement shall be considered only when accepted mutually in writing by both parties by signing amendment to the agreement.

Terms and Termination

This MoU, unless extended by mutual written agreement of the parties, shall expire 02 year after the effective date specified in the opening paragraph. This MoU may be amended or terminated or renewed earlier by mutual written agreement of the parties at any time. The agreement may not be assigned or transferred without the prior written consent of the other party to this agreement. This MoU is executed in duplicate with each copy being an official version of the Agreement and having equal legal validity. This MoU constitutes the entire and only MoU between the parties, and all prior negotiations, representations, agreements, and understanding are hereby superseded.

BY SIGNING BELOW, the parties, acting by their duly authorized officers, have caused this Memorandum of Understanding to be executed, effective as of the day and year first above written.
